Summary

Results-driven Electronics & Communication Engineering student with expertise in full-stack web development, machine learning, and MERN stack technologies. Proficient in Python, JavaScript, React.js, and Node.js with hands-on experience deploying ML models and building scalable web applications. Proven ability to deliver end-to-end solutions from concept to deployment, seeking software engineering opportunities to drive innovation.

Education

Jaypee Institute of Information Technology

Sept 2022 – May 2026

B.Tech. in Electronics and Communication Engineering

- CGPA: 8.8/10.0

Delhi Public School, Hathras

March 2020 – March 2021

Class XII

- Percentage: 96.6

Experience

AI/ML Intern

Remote

Edunet Foundation

June 2025 – July 2025

- Developed machine learning models (XGBoost, Random Forest, Logistic Regression) to predict employee salaries with high accuracy based on multiple performance and demographic parameters.
- Engineered end-to-end ML pipeline including data preprocessing, model training, validation, and performance optimization to deliver reliable prediction results.
- [Deployed](#) interactive Streamlit web application enabling real-time salary predictions with dynamic parameter adjustment and responsive user interface.

Projects

Facebook Helpdesk (Frontend)

[GitHub](#)

- Built frontend for prototype Facebook helpdesk that integrates with a Facebook Page to send and receive messages directly through a custom web interface; all conversation data is stored in a database for tracking and review.
- Tools Used: React.js, HTML, CSS, JavaScript

Employee Salary Prediction (Machine Learning)

[GitHub](#)

- Developed a salary prediction model using supervised learning algorithms like Linear Regression and Random Forest.
- Tools Used: Python, Streamlit, Sci-Kit Learn, Pandas, Matplotlib

Skills

Programming Languages: C++, Python, C, JavaScript, PHP, Kotlin

Web & Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Bootstrap, HTML5, CSS3, RESTful APIs

Machine Learning: Scikit-Learn, Pandas, NumPy, Matplotlib, XGBoost, Model Deployment, Streamlit

Database & Query Languages: MongoDB, MySQL, SQL, Database Design, Query Optimization

Developer Tools & Workflow: Git/GitHub, VS Code, Postman, npm, Chrome DevTools, Agile Methodologies, Code Review, Documentation

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Basic OS, API Integration, Authentication Systems, Performance Optimization & DBMS

Certification

[Artificial Intelligence Fundamentals](#)

July 2025
