Summary

Results-driven Electronics & Communication Engineering student with expertise in full-stack web development and software engineering. Proficient in MERN stack, Python, and JavaScript with hands-on experience building scalable web applications, RESTful APIs, and cloud deployments. Proven ability to deliver end-to-end software solutions from concept to deployment, seeking SDE opportunities to drive innovation.

Education

Jaypee Institute of Information Technology *Sep 2022 – May 2026*
B.Tech. in Electronics and Communication Engineering

- CGPA: 8.8/10.0

Delhi Public School, Hathras *Mar 2020 – Mar 2021*
Class XII

- Percentage: 96.6

Experience

AI/ML Intern *Remote*
Edunet Foundation *Jun 2025 – Jul 2025*

- Developed machine learning models (XGBoost, Random Forest, Logistic Regression) to predict employee salaries with high accuracy based on multiple performance and demographic parameters.
- Engineered end-to-end ML pipeline including data preprocessing, model training, validation, and performance optimization to deliver reliable prediction results.
- [Deployed](#) [🔗](#) interactive Streamlit web application enabling real-time salary predictions with dynamic parameter adjustment and responsive user interface.

Projects

QuickLink - URL Shortener [Deploy](#) [🔗](#)

- Developed a comprehensive URL shortener application with custom alias support, QR code generation, click analytics, and real-time redirect functionality, deployed as part of personal portfolio website with global CDN distribution.
- Tools Used: React.js, Node.js, Vercel serverless functions, Redis (Vercel KV), JavaScript ES6+, RESTful APIs, HTML5/CSS3, Git, and QR code generation libraries

Employee Salary Prediction (Machine Learning) [GitHub](#) [🔗](#)

- Developed a salary prediction model using supervised learning algorithms like Linear Regression and Random Forest.
- Tools Used: Python, Streamlit, Sci-Kit Learn, Pandas, Matplotlib

Skills

Programming Languages: C++, Python, C, JavaScript, PHP, Kotlin
Web & Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Bootstrap, HTML5, CSS3, RESTful APIs
Machine Learning: Scikit-Learn, Pandas, NumPy, Matplotlib, XGBoost, Model Deployment, Streamlit
Database & Query Languages: MongoDB, MySQL, SQL, Database Design, Query Optimization
Developer Tools & Workflow: Git/GitHub, VS Code, Postman, npm, Chrome DevTools, Agile Methodologies, Code Review, Documentation
Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Basic OS, API Integration, Authentication Systems, Performance Optimization & DBMS

Certification

Artificial Intelligence Fundamentals [🔗](#) *Jul 2025*
IBM SkillsBuild
