Summary

B.Tech. Electronics & Communication Engineering student with strong foundations in computer science, data structures, and full-stack web development. Proficient in Python, C++, JavaScript, and the MERN stack, with hands-on experience in building real-time systems, machine learning models, and interactive web applications. Skilled in problem-solving, software development, and collaborative project work, with a passion for creating scalable and efficient tech solutions.

Projects

Facebook Helpdesk (Frontend)

[GitHub](#)

- Built a prototype Facebook helpdesk that integrates with a Facebook Page to send and receive messages directly through a custom web interface; all conversation data is stored in a database for tracking and review.
- Developed with JavaScript frontend (Vite + Tailwind CSS) and Node.js backend, deployed using Docker Compose and AWS services for scalability and secure cloud hosting
- Tools Used: React.js, HTML, CSS, JavaScript

Employee Salary Prediction (Machine Learning)

[GitHub](#)

- Developed a salary prediction model using supervised learning algorithms like Linear Regression and Random Forest.
- Deployed the trained model through a Streamlit web app to provide a user-friendly interface for salary estimation.
- Tools Used: Python, Streamlit, Sci-Kit Learn, Pandas, Matplotlib

Snake Game

[GitHub](#)

- Developed a fully functional browser-based Snake Game where all game logic — including movement, collision, and scoring — was implemented using pure JavaScript.
- Used HTML only for rendering the canvas element, with no external libraries or frameworks involved
- Tools Used: JavaScript, HTML

Education

Jaypee Institute of Information Technology, B.Tech., ECE

Sep 2022 - May 2026

- CGPA: 8.8/10

Delhi Public School, Hathras, Class XII

Mar 2020 - Mar 2021

- Percentage: 96.6

Skills

Programming Languages: C++, Python, C, JavaScript, SQL, PHP, Kotlin, HTML, CSS

Web & Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Bootstrap

Tools & Environments: Git, GitHub, Visual Studio Code, XCode, XAMPP

Libraries & Frameworks: OpenCV, NumPy, Pandas, Scikit-Learn, Matplotlib

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Basic OS & DBMS

Certification

Artificial Intelligence Fundamentals

July 2025
